

How can we work together?

Gretchen Haskins

HeliOffshore

Safety Through Collaboration

4 Questions

- What are the critical success factors?
- How can you be involved?
- How do we ensure it is really affecting safety in the frontline?
- Who do we need to enrol and communicate with?

While I am speaking, write down on a post it, anything that I miss

**What are the
critical success
factors?**

What are the Critical Success Factors?

Senior Leaders drive this

Agreed priorities and plan

Track progress & communicate value

Forward looking with leading indicators

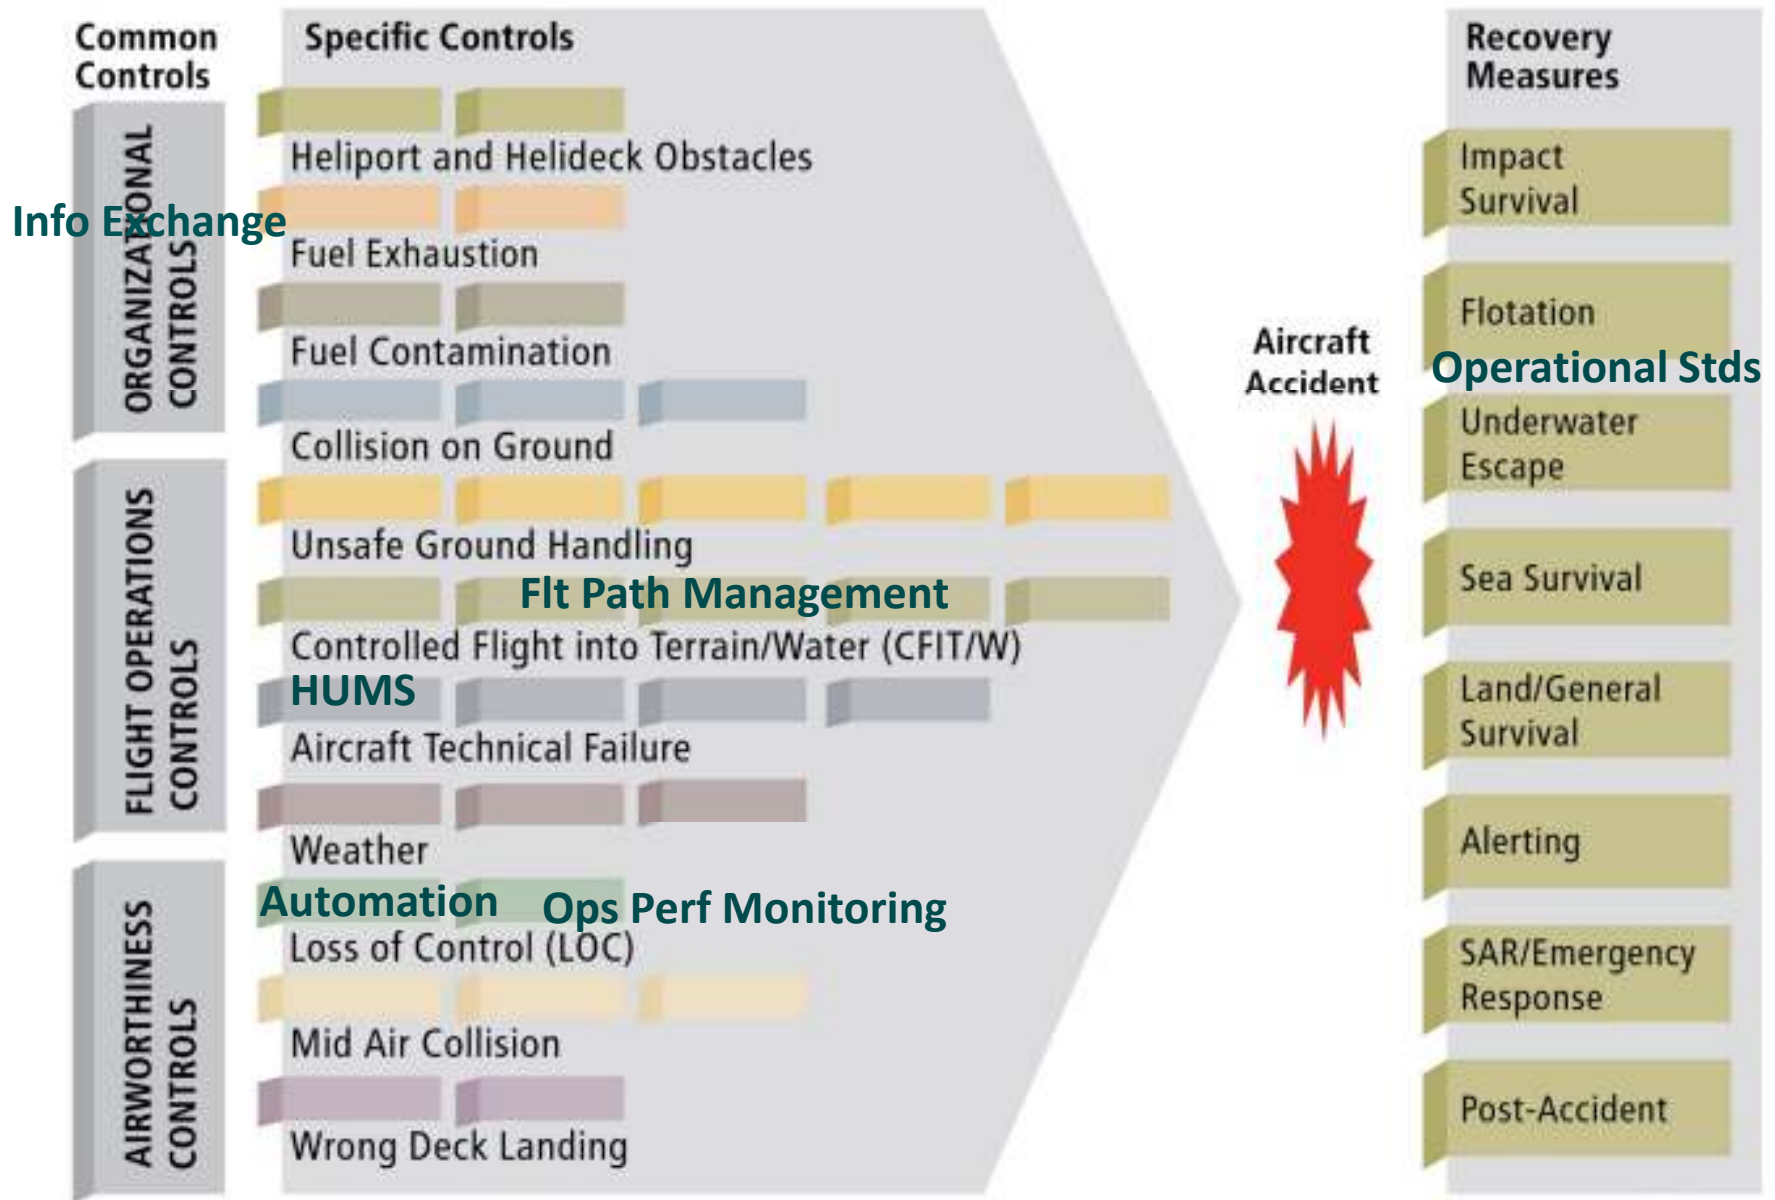

Build common tools and support

Resourced programme, not best endeavours

Vote: On a scale of 1-6, How many of your top 6 Success Factors for this work are on our list here?

Voting

How to agree, communicate and track our priorities?

Top Priorities

Automation

Operational Monitoring

Flight Path Management

Health & Usage Monitoring

Operational Standards

Information Exchange

Are these 6 work streams a good place to start for us or is there anything significant missing?

1. This is a good place to start
2. There is something missing that we need to add as we progress
3. There is something missing that needs to be addressed right away

How can you be involved?

How can you be involved?

Build innovative solutions

Input to annual priorities/plans

Articulate what good looks like

Participate actively in work streams

Look for opportunities to raise the bar

Use our collective voice, spread the word

Request: If you have ideas or have something to offer to support us, please write down on post-it and put on board.

How do we ensure it is really affecting safety in the frontline?

How do we ensure it is really affecting safety in the frontline?

Listen to what people say they need

Give everyone feedback on their progress

Understand what we have to be good at to prevent accidents

Check if actions deliver a result on the frontline

Who do we need to enrol and communicate with?

Who do we need to enrol and communicate with?

Members

Non-members

Our own organisations

Governments/regulators, regional stakeholders –
State safety plans
