

HELIOFFSHORE MEMBERSHIP

HeliOffshore is the global safety-focused association for the offshore helicopter industry. Not-for-profit and member-led, we represent over 90 companies operating in and providing services to the industry.

www.helioffshore.org

HeliOffshore Commitment

Our members are ambitious about what we can achieve by working together to further enhance safety. HeliOffshore commits to enabling global collaboration to deliver those actions that will make the greatest difference to safety at the frontline, and that safety improvements are implemented fully and to the benefit of everyone who is carried offshore by helicopter.

Our purpose is to bring together the global offshore helicopter industry such that:

- No lives are lost through offshore flight;
- Information is shared to prevent accidents;
- Best practice is used by the global frontline;
- Our combined activities provide cost benefits to members; and,
- Collective action delivers breakthroughs in safety performance.

We aim to be the central, definitive source of information on offshore helicopter safety, building unique insight into the challenges and opportunities and promoting positive dialogue within and across our industry in the interests of safety.

HeliOffshore Safety Strategy

The HeliOffshore Safety Strategy and priorities are ratified by our members. Our Strategy provides a common language and framework for the industry to collaborate on safety.

Safety progress is delivered through focused safety workstreams; which are led and populated by experts from among HeliOffshore members. You can read more about our workstreams on the HeliOffshore website: www.helioffshore.org

Membership Benefits

HeliOffshore members recognise their obligation to carry people safely to and from their offshore workplaces, and to continue enhance safety performance, worldwide.

They also recognise the opportunity to contribute to HeliOffshore's efforts and, in return, they receive a number of benefits. Our members have the opportunity to:

- Build a professional network at the most senior level of our industry
- Participate in safety forums and workstreams with key decisions makers
- Access leading industry safety information and guidance
- Directly influence the outcome of global efforts to enhance safety

What Membership Means

Members tell us that the more they contribute to HeliOffshore, the more safety benefit they achieve. All members are expected to participate in delivering HeliOffshore's Safety Strategy, while respecting the association's Anti-Trust Guidelines (available on the website).

Members are also expected to:

- Adhere to agreements around the sharing of confidential or sensitive information
- Contribute safety data and other information for benchmarking or trending analysis
- Implement fully, wherever possible/appropriate, any agreed safety actions – e.g. HUMS Best Practice or Flight Crew Operations Manuals.

How to Participate

HeliOffshore provides the opportunity for stakeholders across our industry to play their part in global collaboration that is delivering frontline results. With the collective resource of our members, we are taking forward a programme of targeted safety actions.

Our forums, working groups and events provide members with the opportunity to shape safety priorities, contribute expertise and experiences, and learn from others in the industry. Forums and groups are member-led, which means the topics and priorities are decided by members.

Your attendance and contribution enhances the breadth and depth of dialogue and strengthens trust and communication across the industry.

Information Sharing

Members share data and information to enable learning, identify priorities, and verify that safety improvements have achieved the desired positive impact on safety performance; this includes participation in InfoShare, HeliOffshore's secure online information sharing site.

HeliOffshore Space

HeliOffshore has made it possible for members to contribute to, and benefit from, our safety activities no matter where they are located. Members have access to our online collaboration tool, HeliOffshore Space, which is the secure working and information sharing area for our work streams.

Other Opportunities to participate.

- HeliOffshore Conference and AGM
- HeliOffshore Regional Groups
- Research and Best Practice Publications
- Quarterly Update Calls

HeliOffshore is enabling a global collaboration that is delivering frontline results.

We are working with members to make our industry's long-term safety collaboration highly effective to the benefit of those at the frontline and everyone who travels offshore.
